SUMMARY

Software Engineering graduate with a Bachelor of Science (Hons) in Software Engineering awarded with Second Class Honours (Upper Division) and a Higher National Diploma in Software Engineering with Merit. Strong foundation in software development, web technologies, database management, and machine learning. Ability to develop innovative solutions through academic and research projects. Eager to contribute technical expertise, problem-solving abilities, and a passion for continuous learning in a dynamic software engineering environment.

EDUCATION

Bachelor of Science (Hons) in Software Engineering 2024 – 2026
Specialized in Software Engineering

- Graduated with **Second Class Honours (Upper Division)**
- Asian Institute of Business and Science
- Awarded by Edge Hill University, United Kingdom

Higher National Diploma (HND) in Software Engineering
Passed with Merit

- Asian Institute of Business and Science
- Awarded by Pearson, United Kingdom

G.C.E. Advanced Level Examination 2023
Central College, Kuliapitiya

- Mathematics Stream
- Results: 1 Credit (C), 2 Simple Passes (S)

G.C.E. Ordinary Level Examination 2018
Central College, Kuliapitiya

- Results: 7 Distinctions (A), 2 Very Good Passes (B)

CERTIFICATIONS

Diploma in English Literature
Aquinas College of Higher Studies

PROJECTS

e-Med Pharmacy Management System

- Developed a web-based pharmacy management system to digitalize pharmacy operations and improve efficiency.
- Enabled customers to browse medicines, upload prescriptions, place orders, and track purchases.
- Implemented staff features for inventory management, prescription validation, and sales monitoring.
- **Technologies:** PHP, MySQL, HTML, CSS, JavaScript

Guardian AI | Diabetes Prediction System

- Developed a machine learning-based diabetes risk prediction system using clinical and lifestyle data.
- Trained and evaluated Support Vector Machine (SVM), Random Forest, and Logistic Regression models to identify the best-performing algorithm.
- Performed data preprocessing, feature selection, and model evaluation using accuracy and performance metrics.
- **Technologies:** Python, Pandas, Scikit-learn, Jupyter Notebook

Nilet | Learning Management System Prototype

- Designed wireframes and interactive prototypes for a Learning Management System using Figma.
- Created user-friendly interfaces for course management, enrollment, and assessments.
- Applied responsive UI/UX design principles to enhance usability and accessibility.
- **Tools:** Figma

RESEARCH & PUBLICATIONS

Ethical AI Deployment in Sustainable Healthcare Facilities: 2025
Lessons from Diabetes Prediction

- **Author:** Herath, H.M.P.M.
- Published in the **16th International Conference on Sustainable Built Environment (ICSBE 2025)** and **Next-Generation Innovation & Advancement DIAMOND 75 (The Kandy Conference)**.
- **Paper ID:** ICSBE25_155

TECHNICAL SKILLS

Programming Languages: C++, PHP
Database Development: MySQL, Microsoft SQL Server Management Studio
Web Development: HTML, CSS, JavaScript, PHP
Software Testing: Selenium
Software Development: Software Development Life Cycle (SDLC)
Operating Systems: Windows
Soft Skills: Strong problem-solving skills, Ability to quickly learn new technologies and programming languages

INTERPERSONAL SKILLS

Leadership • Teamwork • Time Management • Communication • Excellent Attention to Detail
